

Print Manager Plus® 2008 Standard

Network Enterprise Edition

Manage Users, Groups, OUs, Printers, and Print Traffic over your network and have full control of your corporate, government, and SMB environment.

Corporate/Global 2000

Manage Users, User Groups, Organizational Units, Printers, and Print Traffic over your network and have full control of your printing resources with Print Manager Plus 2008 Network Enterprise Edition. Corporations have many department budgetary needs. One of these is printing, which includes monies dispersed for Toner, Paper, Printers, and Maintenance. Now with Print Manager Plus 2008 you can Control and Manage that budget with precision. You can use Print Manager Plus to audit user printing across a department or your entire organization.

Monitor all printing with over 130 detailed premade reports and Graphs that allow you to see who are printing, what they are printing, and the cost of that printing. Bill back department budgets or just examine overall print traffic. View Printer inventory, usage, and printer infrastructure. Dissuade employees from printing personal documents, pictures, and emails with over 10 permission based restrictions or even hard quotas. Irresponsible printing puts a strain on your company's budget and Print Manager Plus can eliminate wasted printing by up to 50% or more on a single network.

Print Manager Plus also fully compliments Sarbanes-Oxley and HIPAA compliancy by affording you a complete print traffic audit of all documents printed and an enabled release station/kiosk for confidential printing. If you're printing environment is a network using Active Directory/LDAP setup Print Manager Plus is the product for you. The efficiency and speed of the product is transparent to the user. The product can track any Operating System and uses Windows Server NT/2000/2003/2008. Whether your enterprise has 1 print server or 1000 print servers Print Manager plus is truly an enterprise product which allows for full remote administration, and its Ease of Use has made it the #1 Print Management software on the market today.

What Reviews Say

 Overall, I found Print Manager Plus very easy to install and manage. ...for schools, universities or facilities houses which charge for a service it could be a real boon. Recommendation is mandatory.”

– PC-PRO Magazine

Track and Audit Printing

Print Jobs being routed through a print server will all be audited no matter what operating system the print job is originating from. Once the print job has spooled through the print driver Print Manager Plus will audit data from Network Sources such as Workgroups, Active Directory, and LDAP.

Network data collected is: User Name, User Group, Organization Unit, Workstation Name, Server Name, Printer Name, Printer Group, and Network Bandwidth.

Print Job data collected is: Time/Date Printed, Document Title, Document Type, Page Count, Copy Count, Page Size, Print Job Size, Black & White Output, Color Output, Duplex, N-Up, Large Format Printing by Inches and Centimeters.

Printers Audited includes: Dot Matrix, Inkjets, LaserJets, Multifunctional devices, Large Format Printers, and Plotters.

Control Printing

Print Manager Plus can set Quotas and Restrictions. Quotas and Restrictions can be set on a single or multiple users, user groups, and organizational units. Restrictions can be set directly on a printer or group of printers. Default settings can be turned on for new Users, and Printers added to the Active Directory.

If a print job has been denied because of a restriction or a quota has been met, Print Manager Plus can automatically be set to Pause the print job or Delete the print job. Pop-Up messages can then be automatically sent to the user's workstation explaining why the print job was denied. Low balance pop up messages can also be sent when a user gets close to his quota.

Hard Quotas

- Set printing account balance by all printers.
- Set multiple printing balances per a group of printers.
- Supports all currencies.
- Set page balance.
- Balances can be deducted by set page costs and deductions with factors such as; B/W, Color, Page Size, Duplex, and N-Up printing.
- Set Quotas to reset by day, week, month, or year.
- Set Quotas to accumulate by day, week, month, or year.
- Supports Negative balances.

Restrictions

- Set multiple restrictions on a User, User Group, Organization Unit, and Printer.
- Deny printing for print jobs over X number of pages.
- Deny printing if document size is over X amount of Bytes, Kilobytes, or Megabytes.
- Only Deny or Only Allow printing based on strings or words in the document title.
- Deny printing if the print job is color.
- Deny printing if the print job is Black and White.
- Deny printing if the number of copies of a print job exceeds X amount.
- Deny printing if the document is reprinted within so many seconds. This handles accidental duplicate printing.
- Deny printing based on time of day. This allows you to set a Black Out time when all printing is denied.

Security & Release Station

- Deny or Allow printing by users who are not recognized by Active Directory.
- Enforce Print Job Verification at Workstation.
- Enforce Print Job Verification at Release Station (optional).
- Supports Sarbanes-Oxley compliancy.
- Supports HIPAA compliancy.
- Supports Data Protection Acts compliancy.

Messaging

Print Manager Plus uses two different ways to send messages back to end users when a quota, restriction, or security rule has been met. First the product will try to use the Windows Messenger service. If this is unavailable then messaging can be used in conjunction with the Print Manager Plus End User Inquiry Tool.

- Automatically Delete a Print Job when a Quota, Restriction, or Security rule has been met.
- Automatically Pause a Print Job when a Quota, Restriction, or Security rule has been met.
- Quota low balance warning message
- Quota has been met message.
- Individual Restrictions have been met message.
- User not recognized by Active Directory message.

Reports and Graphs

Print Manager Plus uses a built in Crystal Reports viewer. The Standard Edition of Print Manager Plus has over 111 built in pre-made reports and graphs.

- Over 111 pre-made reports and graphs.
- Date and Time Value Range.
- Reports by String Search.
- Add Report Title.
- Detailed and Summary Reports with drill down capabilities.
- Print Reports or Graphs
- Zoom In or Out of Reports and Graphs.
- Over 17 export options including: PDF, Html, Rpt, Word, Excel, RTF, CSV, TXT.
- File destinations include: Disk File, Application, Lotus Domino, Exchange, MAPI.

And much much more.

Software Shelf strives to provide each customer with high quality sales assistance, customer service and technical support. In addition to our own line of printer management software, we distribute other "best of breed" Windows Server & Workstation products.
