

# Blue Technologies

COMMITMENT TO EXCELLENCE—EVERY DAY

## Managed Print Services

### Take control of your print environment with a proactive MPS solution

Reactive service and supply of your imaging fleet is frustrating and disruptive to your business. Instead, let Blue Technologies maximize your uptime with preventative maintenance and proactive supplies fulfillment.

With a simple secure download, we make it possible to view the current status of your printers and historical printing trends from an easy-to-use web interface.

This intelligent technology gives us the ability to proactively maintain your printing assets, so you can maximize uptime and minimize costs. Let us manage your print environment remotely, without interrupting your day-to-day business.

### Imaging information at a glance:

Managed Print Services collects critical information from all the networked printers, copiers, MFPs and fax machines in your environment, such as:

- Current status
- Supplies levels
- Page counts
- Model descriptions
- Serial and asset numbers
- Printer locations
- Utilization
- Cost-per-page tracking
- Automated service alerts
- Historical trending reports

### Intelligent technology:

The Managed Print Services Data Collection Agent is installed on a single workstation at your location.

- Software application runs in the background, collecting and transmitting critical imaging metrics to secure web server.
- Printer information will be available 24 hours a day, 7 days a week via the secure website.
- No personal or user data is collected with the software.

### What are you waiting for?

Put the power of Managed Print Services to work for you! Let us worry about managing your printing assets so you can take care of business. Call today to arrange your Managed Print Services assessment:
